Delight guests with their favorite spreads...and more!

Deliver more memorable experiences for your guests with caddies that give guests access to our free augmented reality app.
They can play games together at the table while waiting for their food without any extra work for you!

Technology continues to be a more expected part of dining experiences,
from on-table gaming and ordering devices to digital menu boards!

By downloading the app, your guests
can enjoy these engaging experiences:

- 1 Conversation Starters to spark lively discussion at the table
- 2 Trivia to quiz their tablemates on fun facts about food, history, pop culture and science
- 3 Fruit Smash game where they can smash as much fruit as possible in 30 seconds

How does it work? It's easy!
